

Want to Fly Radio Controlled Aircraft?

Our club, the Santa Fe Dam Radio Control Modelers, is made up of people of all ages and backgrounds; all with a common interest in the hobby and sport of radio controlled model aircraft.

This club has been continuously active since 1977. It is chartered by the Academy of Model Aeronautics. Members fly at the club's limited access site located within the Santa Fe Dam Recreation Area near the junction of the 605 and 210 freeways in Duarte, California.

If you are interested in joining our club, why not come to a monthly club meeting? Or, if you have any questions, give one of our club officers a call.

Meetings are held on the **2nd Wednesday** of each month, at **7:30PM**, in the **Red Cross Building, 376 W. Huntington Dr., Arcadia, California, on the south end of Arcadia Methodist Hospital campus**. You are welcome to bring your project or questions to any club meeting.

Do You Need a Little (or a Lot of) Help?

The Santa Fe Dam Radio Control Modelers welcomes anyone with an interest in Radio Control Aircraft (including electric and helicopters) regardless of their skill level.

Our club has a number of people who volunteer their time as instructors to help novice RC pilots. If you are new to flying, we recommend you contact one of the club instructors listed in the club newsletter, posted on the club web site. We recommend you do this before you buy an aircraft or any equipment or so you have the best chance of being successful.

Any of the instructors will be glad to help you. If the first instructor you call is unavailable, please call another one. To receive flight instruction, make an appointment with your instructor, and **KEEP THE APPOINTMENT** or **CALL IN ADVANCE TO CANCEL THE SESSION**. Many of our instructors have stopped instructing because of the many students that didn't show up. Instructors are volunteers and have lots of other things to do also, so please be courteous and considerate.
